REV 3**

EUROPOL 47

LEGISLATIVE ACTS AND OTHER INSTRUMENTS

Subject: COUNCIL DECISION establishing the European Police Office
(Europol)

COUNCIL DECISION

of

**establishing the European Police Office
(Europol)**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on European Union, and in particular Article 30(1)(b), Article 30(2) and Article 34(2)(c) thereof,

Having regard to the proposal from the Commission,

Having regard to the Opinion of the European Parliament¹,

¹ Opinion of 17 January 2008 (not yet published in the Official Journal).

Whereas:

- (1) The establishment of a European Police Office (Europol) was agreed in the Treaty on European Union of 7 February 1992, and regulated in the Convention based on Article K.3 of the Treaty on European Union, on the establishment of a European Police Office (Europol Convention)¹.
- (2) The Europol Convention has been the subject of a number of amendments enshrined in three protocols which have entered into force after a lengthy process of ratification. Consequently, replacing the Convention by a Decision will ease further amendments as necessary.
- (3) Simplification and improvement of Europol's legal framework can be partially achieved by the establishment of Europol as an entity of the Union, funded from the general budget of the European Union, due to the subsequent application of the general rules and procedures.
- (4) Recent legal instruments setting up similar Union entities in the areas covered by Title VI of the Treaty on European Union (Council Decision 2002/187/JHA of 28 February 2002 setting up Eurojust with a view to reinforcing the fight against serious crime² and Council Decision 2005/681/JHA of 20 September 2005 establishing the European Police College (CEPOL)³) have taken the form of Council Decisions, since such Decisions are more easily adaptable to changing circumstances and emerging political priorities.

¹ OJ C 316, 27.11.1995, p. 1.

² OJ L 63, 6.3.2002, p. 1.

³ OJ L 256, 1.10.2005, p. 63.

- (5) Establishing Europol as an entity of the Union, funded from the general budget of the European Union, will enhance the role of the European Parliament in the control of Europol through the involvement of the European Parliament in the adoption of that budget, including the establishment plan, and the discharge procedure.
- (6) Making Europol subject to the general rules and procedures applicable to similar Union entities will ensure administrative simplification, which will allow Europol to devote more of its resources to its core tasks.
- (7) Further simplification and improvement of Europol's functioning can be achieved through measures aimed at widening the possibilities for Europol's assisting and supporting the competent law enforcement authorities of the Member States, without providing for executive powers for Europol staff.
- (8) One such improvement is to ensure that Europol can assist the competent authorities of the Member States in combating specific forms of serious crime, without the current limitation that there must be factual indications that an organised criminal structure is involved.

- (9) The establishment of joint investigation teams should be encouraged and it is important that Europol staff should be able to participate in them. To ensure that such participation is possible in every Member State, it should be guaranteed that Europol staff do not benefit from the application of immunities while they are participating in a support capacity in joint investigation teams. That will be possible after the adoption of a Regulation to that effect on the basis of Article 16 of the Protocol on the Privileges and Immunities of the European Communities.
- (10) Europol national units should have direct access to all data in the Europol Information System to avoid unnecessary procedures.
- (11) In order to achieve its objectives, Europol processes personal data by automated means or in structured manual files. Accordingly, the necessary steps should be taken to guarantee a level of data protection which corresponds at least to that which results from the application of the principles of the Council of Europe Convention for the Protection of Individuals with regard to Automatic Processing of Personal Data, signed in Strasbourg on 28 January 1981, together with subsequent amendments thereto, once such amendments are in force between the Member States.

- (12) A Council Framework Decision on the protection of personal data processed in the framework of police and judicial cooperation in criminal matters will be applicable to the transfer of personal data by Member States to Europol. The relevant set of data-protection provisions in this Decision will not be affected by that Framework Decision and this Decision should contain specific provisions on the protection of personal data regulating these matters in greater detail because of the particular nature, functions and competences of Europol.
- (13) There is a need for a Data Protection Officer who should be responsible for ensuring, in an independent manner, the lawfulness of data processing and compliance with the provisions of this Decision concerning the processing of personal data, including the processing of personal data on Europol staff which are protected by Article 24 of Regulation (EC) No 45/2001 of the European Parliament and of the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data¹.

¹ OJ L 8, 12.1.2001, p. 1.

- (14) Europol's existing possibilities for the creation and management of information processing systems in support of its tasks should be widened. Such additional information processing systems should be established and maintained in accordance with the general principles of data protection enshrined in the Council of Europe Convention for the Protection of Individuals with regard to Automatic Processing of Personal Data of 28 January 1981 and in Recommendation No R (87) 15 of the Committee of Ministers of the Council of Europe of 17 September 1987, by means of a Management Board decision approved by the Council.
- (15) This Decision allows the principle of public access to official documents to be taken into account.
- (16) For the purpose of fulfilling its mission, Europol should cooperate with European institutions, bodies, offices and agencies, including Eurojust, ensuring an adequate level of data protection.
- (17) Europol should be able to conclude agreements and working arrangements with Union or Community institutions, bodies, offices and agencies in order to increase mutual effectiveness in combating serious forms of crime which come within the respective competence of both parties and to avoid the duplication of work.

- (18) Europol's possibilities for cooperation with third States and organisations should be rationalised in order to ensure consistency with the general policy of the Union in that respect and new provisions on the manner in which such cooperation should take place in future should be laid down.
- (19) The governance of Europol should be improved through simplified procedures, more general descriptions of the tasks of the Management Board and the establishment of a common rule that all decisions should be taken by a majority of two thirds.
- (20) It is also desirable to provide for enhanced control over Europol by the European Parliament in order to ensure that Europol remains a fully accountable and transparent organisation, due account being taken of the need to safeguard the confidentiality of operational information.
- (21) Judicial control over Europol will be exercised in accordance with Article 35 of the Treaty on European Union.
- (22) In order to enable Europol to continue to fulfil its tasks to the best of its abilities, carefully designed transitional measures should be laid down.

- (23) Since the objective of this Decision, namely the establishment of an entity responsible for law-enforcement cooperation at Union level, cannot be sufficiently achieved by the Member States and can, therefore, by reason of the scale and effects of the action, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity, as set out in Article 5 of the Treaty establishing the European Community and referred to in Article 2 of the Treaty on European Union. In accordance with the principle of proportionality, as set out in Article 5 of the Treaty establishing the European Community, this Decision does not go beyond what is necessary in order to achieve that objective.
- (24) This Decision respects the fundamental rights and observes the principles recognised in particular by the Charter of Fundamental Rights of the European Union,

HAS DECIDED AS FOLLOWS:

CHAPTER I

Europol may also encourage the coordination of measures carried out in order to fight euro counterfeiting by the competent authorities of the Member States or in the context of joint investigation teams, where appropriate in liaison with Union entities and third States' bodies. Upon request, Europol may financially support investigations of euro counterfeiting.

Article 6

Europol staff may, within the limits provided for by the law of the Member States in which a joint investigation team is operating and in accordance with the arrangement referred to in paragraph 2, assist in all activities and exchange information with all members of the joint investigation team, in accordance with paragraph 4. They shall not, however, take part in the taking of any coercive measures.

2. the initiation of criminal investigations*

1. Member States shall deal with any request by Europol to initiate, conduct or coordinate investigations in specific cases and shall give such requests due consideration. The Member States shall inform Europol whether the investigation requested will be initiated.
2. Before making a request for the initiation of criminal investigations, Europol shall inform Eurojust accordingly.

3. If the competent authorities of the Member State decide not to comply with a request made by Europol, they shall inform Europol of their decision and of the reasons therefor unless they are unable to give their reasons because:
 - (a) to do so would harm essential national security interests; or

4. Replies to requests by Europol for the initiation, conduct or coordination of investigations in specific cases and information for Europol concerning the results of investigations shall be forwarded through the competent authorities of the Member States in accordance with the rules laid down in this Decision and the relevant national legislation.

- (e) issue requests for advice, information, intelligence and analysis to Europol;
 - (f) supply Europol with information for storage in its databases;
 - (g) ensure compliance with the law in every exchange of information between themselves and Europol.
5. Without prejudice to the Member States' discharging the responsibilities incumbent upon them with regard to the maintenance of law and order and the safeguarding of internal security, a national unit shall not in any particular case be obliged to supply information or intelligence if that would entail:
- (a) harming essential national security interests;
 - (b) jeopardising the success of a current investigation or the safety of individuals; or
 - (c) disclosing information relating to organisations or specific intelligence activities in the field of State security.
6. The costs incurred by the national units in communications with Europol shall be borne by the Member States and, apart from the costs of connection, shall not be charged to Europol.

7. The heads of the national units shall meet on a regular basis to assist Europol on operational matters, on their own initiative or at the request of the Management Board or the Director, in particular to:
- (a) consider and develop proposals that will improve Europol's operational effectiveness and encourage commitment from Member States;
 - (b) evaluate the reports and analyses drafted by Europol in accordance with Article 5(1)(f) and develop measures in order to help to implement their findings;
 - (c) provide support in the establishment of joint investigation teams involving Europol in accordance with Article 5(1)(d) and Article 6.

Article 9

Liaison officers

1. Each national unit shall second at least one liaison officer to Europol. Except as otherwise stipulated in specific provisions of this Decision, liaison officers shall be subject to the national law of the seconding Member State.

 - (a) provide Europol with information from the seconding national unit;
 - (b) forward information from Europol to the seconding national unit;
 - (c) cooperate with Europol staff by providing information and giving advice; and
 - (d) assist in the exchange of information from their national units with the liaison officers of other Member States under their responsibility in accordance with national law. Such bilateral exchanges may also cover crimes outwith the competence of Europol, as far as allowed by national law.
4. Article 35 shall apply *mutatis mutandis* to the activities of liaison officers.
5. The rights and obligations of liaison officers in relation to Europol shall be determined by the Management Board.
6. Liaison officers shall enjoy the privileges and immunities necessary for the performance of their tasks in accordance with Article 51(2).

7. Europol shall ensure that liaison officers are fully informed of and associated with all of its activities, as far as that is compatible with their position.
8. Europol shall provide Member States free of charge with the necessary premises in the Europol building and adequate support for the performance of the activities of their liaison officers. All other costs which arise in connection with the secondment of liaison officers shall be borne by the seconding Member State, including the costs of equipment for liaison officers, unless the Management Board recommends otherwise in specific cases when drawing up Europol's budget.

CHAPTER II

INFORMATION PROCESSING SYSTEMS

Article 10

Information processing

1. Insofar as it is necessary for the achievement of its objectives, Europol shall process information and intelligence, including personal data, in accordance with this Decision. Europol shall establish and maintain the Europol Information System referred to in Article 11 and the analysis work files referred to in Article 14. Europol may also establish and maintain other systems processing personal data set up in accordance with paragraphs 2 and 3 of this Article.

2. The Management Board, acting on a proposal from the Director after having taken into account the possibilities offered by existing Europol information processing systems and after consulting the Joint Supervisory Body, shall decide on the establishment of a new system processing personal data. That Management Board decision shall be submitted to the Council for approval.
3. The Management Board decision referred to in paragraph 2 shall determine the conditions and limitations under which Europol may establish the new system processing personal data. The Management Board decision may allow processing of personal data relating to the categories of persons referred to in Article 14(1), but not the processing of personal data revealing racial or ethnic origin, political opinions, religious or philosophical beliefs or trade-union membership and the processing of data concerning health or sex life. The Management Board decision shall ensure that the measures and principles referred to in Articles 18, 19, 20, 27, 29 and 35 are properly implemented. In particular, the Management Board decision shall define the purpose of the new system, access to and the use of the data, as well as time limits for the storage and deletion of the data.

4. Europol may process data for the purpose of determining whether such data are relevant to its tasks and can be included in the Europol Information System referred to in Article 11, in the analysis work files referred to in Article 14 or in other systems processing personal data established in accordance with paragraphs 2 and 3 of this Article. The Management Board, acting on a proposal from the Director and after consulting the Joint Supervisory Body, shall determine the conditions relating to the processing of such data, in particular with respect to access to and the use of the data, as well as time limits for the storage and deletion of the data that may not exceed six months, having due regard to the principles referred to in Article 27. That Management Board decision shall be submitted to the Council for approval.

Article 11

Europol Information System

1. Europol shall maintain the Europol Information System.
2. Europol shall ensure compliance with the provisions of this Decision governing operation of the Europol Information System. It shall be responsible for the proper working of the Europol Information System in technical and operational respects and shall, in particular, take all measures necessary to ensure that the measures referred to in Articles 20, 29, 31 and 35 regarding the Europol Information System are properly implemented.

3. The national unit in each Member State shall be responsible for communication with the Europol Information System. It shall, in particular, be responsible for the security measures referred to in Article 35 in respect of the data-processing equipment used within the territory of the Member State in question, for the review provided for in Article 20 and, insofar as required under the laws, regulations, administrative provisions and procedures of that Member State, for the proper implementation of this Decision in other respects.

Article 12

Content of the Europol Information System

1. The Europol Information System may be used to process only such data as are necessary for the performance of Europol's tasks. The data input shall relate to:
 - (a) persons who, in accordance with the national law of the Member State concerned, are suspected of having committed or having taken part in a criminal offence in respect of which Europol is competent or who have been convicted of such an offence;
 - (b) persons regarding whom there are factual indications or reasonable grounds under the national law of the Member State concerned to believe that they will commit criminal offences in respect of which Europol is competent.

2. Data relating to the persons referred to in paragraph 1 may include only the following particulars:
 - (a) surname, maiden name, given names and any alias or assumed name;
 - (b) date and place of birth;
 - (c) nationality;
 - (d) sex;
 - (e) place of residence, profession and whereabouts of the person concerned;
 - (f) social security numbers, driving licences, identification documents and passport data;
and
 - (g) where necessary, other characteristics likely to assist in identification, including any specific objective physical characteristics not subject to change such as dactyloscopic data and DNA profile (established from the non-coding part of DNA).

3. In addition to the data referred to in paragraph 2, the Europol Information System may also be used to process the following particulars concerning the persons referred to in paragraph 1:

- (a) criminal offences, alleged criminal offences and when, where and how they were (allegedly) committed;
- (b) means which were or may be used to commit those criminal offences including information concerning legal persons;
- (c) departments handling the case and their filing references;
- (d) suspected membership of a criminal organisation;
- (e) convictions, where they relate to criminal offences in respect of which Europol is competent;
- (f) inputting party.

These data may also be input when they do not yet contain any references to persons. Where Europol inputs the data itself, as well as when it gives its filing reference, it shall also indicate the source of the data.

4. Additional information held by Europol or national units concerning the persons referred to in paragraph 1 may be communicated to any national unit or Europol should either so request. National units shall do so in compliance with their national law.

Where the additional information concerns one or more related criminal offences as defined in Article 4(3), the data stored in the Europol Information System shall be marked accordingly to enable national units and Europol to exchange information concerning the related criminal offences.

5. If proceedings against the person concerned are definitively dropped or if that person is definitively acquitted, the data relating to the case in respect of which either decision has been taken shall be deleted.

Article 13

Use of the Europol Information System

1. National units, liaison officers, the Director, Deputy Directors and duly empowered Europol staff shall have the right to input data directly into the Europol Information System and retrieve them from it. Data may be retrieved by Europol where that is necessary for the performance of its tasks in a particular case. Retrieval by the national units and liaison officers shall be effected in accordance with the laws, regulations, administrative provisions and procedures of the accessing party, subject to any additional provisions laid down in this Decision.

2. Only the party which has input data may modify, correct or delete such data. Where another party has reason to believe that data as referred to in Article 12(2) are incorrect or wishes to supplement them, it shall immediately inform the inputting party. The inputting party shall examine such information without delay and if necessary modify, supplement, correct or delete the data immediately.
3. Where the system contains data as referred to in Article 12(3) concerning a person, any party may input additional data as referred to in that provision. Where there is an obvious contradiction between the data input, the parties concerned shall consult each other and reach agreement.
4. Where a party intends to delete altogether data as referred to in Article 12(2) which it has input concerning a person and data as referred to in Article 12(3) in respect of the same person have been input by other parties, responsibility in terms of data-protection legislation pursuant to Article 29(1) and the right to modify, supplement, correct and delete such data pursuant to Article 12(2) shall be transferred to the next party to have input data as referred to in Article 12(3) on that person. The party intending to delete shall inform the party to which responsibility in terms of data protection is transferred of its intention.

5. Responsibility for the permissibility of retrieval from, input into and modifications within the Europol Information System shall lie with the retrieving, inputting or modifying party. It must be possible to identify that party. The communication of information between national units and the competent authorities of the Member States shall be governed by national law.
6. In addition to the national units and persons referred to in paragraph 1, competent authorities designated to that effect by the Member States may also query the Europol Information System. However, the result of the query shall indicate only whether the data requested are available in the Europol Information System. Further information may then be obtained via the national unit.
7. Information concerning the competent authorities designated in accordance with paragraph 6, including subsequent modifications, shall be transmitted to the General Secretariat of the Council, which shall publish the information in the *Official Journal of the European Union*.

Article 14
Analysis work files

1. Where this is necessary for the performance of its tasks, Europol may store, modify, and use data concerning criminal offences in respect of which it is competent, including data on the related criminal offences referred to in Article 4(3), in analysis work files. The analysis work files may contain data on the following categories of persons:
 - (a) persons as referred to in Article 12(1);
 - (b) persons who might be called on to testify in investigations in connection with the offences under consideration or in subsequent criminal proceedings;
 - (c) persons who have been the victims of one of the offences under consideration or with regard to whom certain facts give reason to believe that they could be the victims of such an offence;
 - (d) contacts and associates; and
 - (e) persons who can provide information on the criminal offences under consideration.

The processing of personal data revealing racial or ethnic origin, political opinions, religious or philosophical beliefs or trade-union membership and the processing of data concerning health or sex life shall not be permitted unless strictly necessary for the purposes of the file concerned and unless such data supplement other personal data already input in that file. The selection of a particular group of persons solely on the basis of the abovementioned sensitive data, in breach of the aforementioned rules with regard to purpose, shall be prohibited.

The Council, acting by qualified majority after consulting the European Parliament, shall adopt implementing rules for analysis work files prepared by the Management Board, which shall previously have obtained the opinion of the Joint Supervisory Body, containing additional details, in particular with regard to the categories of personal data referred to in this Article, to the security of the data concerned and to the internal supervision of their use.

2. Analysis work files shall be opened for the purposes of analysis defined as the assembly, processing or use of data with the aim of assisting criminal investigations. Each analysis project shall entail the establishment of an analysis group closely associating the following participants:

- (a) analysts and other Europol staff designated by the Director;
- (b) liaison officers and/or experts from the Member States supplying the information or concerned by the analysis within the meaning of paragraph 4.

Only analysts shall be authorised to input data into the file concerned and modify such data. All participants in the analysis group may retrieve data from the file.

3. At the request of Europol or on their own initiative, national units shall, subject to Article 8(5), communicate to Europol all the information which it may require for the purpose of a particular analysis work file. Member States shall communicate such data only where processing thereof for the purposes of preventing, analysing or combating offences is also authorised by their national law. Depending on their degree of urgency, data from designated competent authorities may be routed directly to the analysis work file in accordance with Article 8(2).
4. If an analysis is of a general nature and of a strategic type, all Member States, through liaison officers and/or experts, shall be fully associated in the findings thereof, in particular through the communication of reports drawn up by Europol.

If the analysis bears on specific cases not concerning all Member States and has a direct operational aim, representatives of the following Member States shall participate therein:

- (a) Member States which were the source of the information giving rise to the decision to open the analysis work file, or those which are directly concerned by that information, and Member States subsequently invited by the analysis group to take part in the analysis because they are also becoming concerned;
- (b) Member States which learn from consulting the index function referred to in Article 15 that they need to be informed and assert that need to know under the conditions laid down in paragraph 5 of this Article.

5. The need to be informed may be claimed by authorised liaison officers. Each Member State shall nominate and authorise a limited number of such liaison officers.

A liaison officer shall claim the need to be informed as provided for in point (b) of the second subparagraph of paragraph 4 by means of a written reasoned statement approved by the authority to which he is subordinate in his Member State and forwarded to all the participants in the analysis. He shall then be associated automatically in the analysis in progress.

If an objection is raised in the analysis group, automatic association shall be deferred until the completion of a conciliation procedure, which shall comprise three stages as follows:

- (a) the participants in the analysis shall endeavour to reach agreement with the liaison officer claiming the need to be informed. They shall have no more than eight days for that purpose;
- (b) if no agreement is reached, the heads of the national units concerned and the Director shall meet within three days and try to reach agreement;
- (c) if the disagreement persists, the representatives of the parties concerned on the Management Board shall meet within eight days. If the Member State concerned does not waive its need to be informed, association of that Member State shall be decided on by consensus.

6. The Member State communicating an item of data to Europol shall be the sole judge of the degree of its sensitivity and variations thereof and shall be entitled to determine the conditions for the handling of the data. Any dissemination or operational use of data communicated shall be decided on by the Member State that communicated the data to Europol. If it cannot be determined which Member State communicated the data to Europol, the decision on dissemination or operational use of data shall be taken by the participants in the analysis. A Member State or an associated expert joining an analysis in progress may not, in particular, disseminate or use the data without the prior agreement of the Member States initially concerned.

7. By way of derogation from paragraph 6, in cases in which Europol finds, after the time of inclusion of data in an analysis work file, that those data relate to a person or object on which data submitted by another Member State or third party were already input in the file, the Member State or third party concerned shall be informed immediately of the link identified, in accordance with Article 17.

8. Europol may invite experts from the entities referred to in Articles 22(1) or 23(1) to be associated with the activities of an analysis group, where:
 - (a) an agreement or working arrangement such as referred to in Articles 22(2) and 23(2) which contains appropriate provisions on the exchange of information, including the transmission of personal data, and on the confidentiality of exchanged information, is in force between Europol and the entity concerned;
 - (b) the association of the experts from the entity is in the interest of the Member States;
 - (c) the entity is directly concerned by the analysis work; and
 - (d) all participants agree on the association of the experts from the entity with the activities of the analysis group.

Under the conditions laid down in points (b), (c) and (d) of the first subparagraph, Europol shall invite experts of the European Anti-Fraud Office to be associated with the activities of the analysis group if the analysis project concerns fraud or any other illegal activities affecting the financial interests of the European Communities.

The association of experts from an entity with the activities of an analysis group shall be subject to an arrangement between Europol and the entity. The rules governing such arrangements shall be determined by the Management Board.

Details of the arrangements between Europol and entities shall be sent to the Joint Supervisory Body, which may address any comments it deems necessary to the Management Board.

Article 15

1. An index function shall be created by Europol for the data stored in the analysis work files.
2. The Director, the Deputy Directors, duly empowered Europol staff, liaison officers and duly empowered members of national units shall have the right to access the index function. The index function shall be such that it is clear to the person using it, from the data being consulted, whether an analysis work file contains data which are of interest for the performance of the tasks of the person using the index function.

3. Access to the index function shall be defined in such a way that it is possible to determine whether or not an item of information is stored in an analysis work file, but not to establish connections or further conclusions regarding the content of the file.
4. The Management Board shall define the detailed procedures for the design of the index function, including the conditions of access to the index function, after obtaining the advice of the Joint Supervisory Body.

Article 16

 - (i) the method of establishment of the audit log.
2. The Management Board and the Joint Supervisory Body shall immediately be informed by the Director of the order opening the file or any subsequent change in the particulars referred to in paragraph 1 and shall receive the dossier. The Joint Supervisory Body may address any comments it deems necessary to the Management Board. The Director may request the Joint Supervisory Body to do that within a specified period of time.
3. The analysis work file shall be retained for a maximum period of three years. Before the expiry of that three-year period, Europol shall review the need for the continuation of the file. When it is strictly necessary for the purpose of the file, the Director may order the continuation of the file for a further period of three years. The Management Board and the Joint Supervisory Body shall immediately be informed by the Director of the elements in the file justifying the strict need for its continuation. The Joint Supervisory Body shall address any comments it deems necessary to the Management Board. The Director may request the Joint Supervisory Body to do that within a specified period of time.

4. At any time the Management Board may instruct the Director to amend an opening order or to close an analysis work file. The Management Board shall decide on what date any such amendment or closure will take effect.

CHAPTER III

COMMON PROVISIONS ON INFORMATION PROCESSING

Article 17

Duty to notify

Without prejudice to Article 14(6) and (7), Europol shall promptly notify the national units and, if the national units so request, their liaison officers of any information concerning their Member State and of connections identified between criminal offences in respect of which Europol is competent under Article 4. Information and intelligence concerning other serious crime of which Europol becomes aware in the course of its duties may also be communicated.

Article 18

Provisions on control of retrievals

Europol shall establish, in cooperation with the Member States, appropriate control mechanisms to allow the verification of the legality of retrievals from any of its automated data files used to process personal data and to allow Member States access to the audit logs on request. The data thus collected shall be used only for the purpose of such verification by Europol and the supervisory bodies referred to in Articles 33 and 34 and shall be deleted after eighteen months, unless the data are further required for ongoing control. The Management Board shall decide on the details of such control mechanisms after consulting the Joint Supervisory Body.

Article 19

Rules on the use of data

1. Personal data retrieved from any of Europol's data processing files or communicated by any other appropriate means shall be transmitted or used only by the competent authorities of the Member States in order to prevent and combat crimes in respect of which Europol is competent, and to prevent and combat other serious forms of crime. Europol shall use the data only for the performance of its tasks.

2. If, in the case of certain data, the communicating Member State or the communicating third State or third body stipulates particular restrictions on use to which such data is subject in that Member State, third State or third body, such restrictions shall also be complied with by the user of the data except in the specific case where national law lays down that the restrictions on use be waived for judicial authorities, legislative bodies or any other independent body set up under the law and made responsible for supervising the national competent authorities. In such cases, the data shall be used only after consultation of the communicating Member State the interests and views of which shall be taken into account as far as possible.
3. Use of the data for other purposes or by authorities other than the national competent authorities shall be possible only after consultation of the Member State which transmitted the data insofar as the national law of that Member State permits.

Article 20

Time limits for the storage and deletion of data

1. Europol shall hold data in data files only for as long as is necessary for the performance of its tasks. The need for continued storage shall be reviewed no later than three years after the input of data. Review of data stored in the Europol Information System and their deletion shall be carried out by the inputting unit. Review of data stored in other Europol data files and their deletion shall be carried out by Europol. Europol shall automatically inform the Member States three months in advance of the expiry of the time limits for reviewing the storage of data.

2. During the review, the units referred to in the third and fourth sentences of paragraph 1 may decide on the continued storage of data until the following review which shall take place after another period of three years if that is still necessary for the performance of Europol's tasks. If no decision is taken on the continued storage of data, those data shall be deleted automatically.
3. Where a Member State deletes from its national data files data communicated to Europol which are stored in other Europol data files, it shall inform Europol accordingly. In such cases, Europol shall delete the data unless it has further interest in them, based on intelligence that is more extensive than that possessed by the communicating Member State. Europol shall inform the Member State concerned of the continued storage of such data.
4. Such data shall not be deleted if this would damage the interests of a data subject who requires protection. In such cases, the data shall be used only with the consent of the data subject.

Article 21

Access to data from other information systems

Insofar as Europol is entitled under Union, international or national legal instruments to gain computerised access to data from other information systems, of national or international nature, Europol may retrieve personal data by such means if that is necessary for the performance of its tasks. The applicable provisions of such Union, international or national legal instruments shall govern access to and the use of this data by Europol, insofar as they provide for stricter rules on access and use than those of this Decision.

4. Transmission by Europol of classified information to the entities referred to in paragraph 1 shall be permissible only insofar as agreement on confidentiality exists between Europol and the recipient.

Article 23

Relations with third States and organisations

1. Insofar as it is necessary for the performance of its tasks, Europol may also establish and maintain cooperative relations with:
 - (a) third States;

7. Transmission by Europol of classified information to the entities referred to in paragraph 1 shall be permissible only insofar as agreement on confidentiality exists between Europol and the recipient.
8. By way of derogation from paragraphs 6 and 7 and without prejudice to Article 24(1), Europol may transmit personal data and classified information which it holds to the entities referred to in paragraph 1 of this Article where the Director considers the transmission of the data to be absolutely necessary to safeguard the essential interests of the Member States concerned within the scope of Europol's objectives or in the interests of preventing imminent danger associated with crime or terrorist offences. The Director shall in all circumstances consider the data-protection level applicable to the body in question with a view to balancing that data-protection level and those interests. The Director shall inform the Management Board and the Joint Supervisory Body as soon as possible of his or her decision and of the basis of the assessment of the adequacy of the level of data protection afforded by the entities concerned.

The Member State concerned may give its prior consent, in general terms or subject to specific conditions, to such transmission. Such consent may be withdrawn at any time.

- (a) obstruct the proper performance of the tasks in respect of which a Member State is competent;

- (b) jeopardise the security or public order of a Member State or otherwise prejudice its general welfare.
2. Europol shall be responsible for the legality of the transmission of data. Europol shall keep a record of all transmissions of data under this Article and of the grounds for such transmissions. Data shall be transmitted only if the recipient gives an undertaking that the data will be used only for the purpose for which they were transmitted.

Furthermore, if the possibility exists that the evidence may extend to information and knowledge which a Member State has communicated to Europol or which clearly involves a Member State, the position of that Member State concerning the evidence shall be sought before permission is granted.

Permission to give evidence may be refused only insofar as that is necessary to protect the overriding interests of Europol or of a Member State or Member States that need protection.

4. Each Member State shall treat any infringement of the obligation of discretion or confidentiality laid down in paragraphs 2 and 3 as a breach of the obligations imposed by its law on official or professional secrets or its provisions for the protection of classified material.

It shall ensure that the rules and provisions concerned also apply to its own employees who have contact with Europol in the course of their work.
